Claim Rejections - 35 USC § 112 (Second Paragraph)

- 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1754

4. Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase “for all inclusions and each individual element is incorporated into said alloy in quantities less than about 3 atomic percent” does not clearly point out what applicants intend. Also, is this amount the same or differ from the amount of the metals incorporated into the alloy recited in the same claim?

Response to Applicants' Arguments

5. Applicants' amendment and remarks filed on June 05, 2006 has been considered, but not deemed persuasive in view of the new ground of rejection(s) and/or objection(s) above.
